Life as a SPORK

Bamboo utensils are handmade at our workshop, where lucky little bits of waste get a second chance.

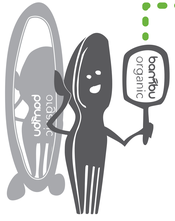
1 Profile drawn onto scrap.

2 SPORK is cut free and hand-sanded.

3 SPORK gets some curves - and some legs.

4 Sanded, polished, oiled...

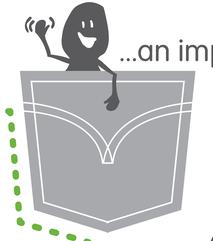
5 ...and honored with the USDA organic brand.



SPORK is clean & green: made without adhesives or lacquers.

Infinitely reusable, SPORK is the ideal non-plastic partner.

6 ...and happily joins you on...



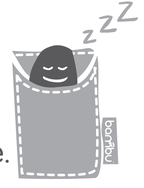
...an impromptu picnic.

...a hike.

...a family outing.

...a dip into something sweet.

...a party.



...adventures everywhere.
